

11 June 2010

Notice

West Island Line Project – Night Work at Pokfulam Road (Near The University of Hong Kong Haking Wong Building)

To facilitate the construction of the West Island Line Hong Kong University Station, a temporary footbridge connecting Pok Fu Lam Road and the Haking Wong Building will be constructed and the existing grand staircase at Haking Wong Building will be demolished. As the project requires the use of the comparatively large construction machineries, some works will be carried out at night time from 15 June 2010 to 5 July 2010 in order to minimise the traffic disruption.

We apologise for any inconvenience caused, please rest assured that the Corporation will closely monitor the construction works so as to minimise the disturbance to the community. For enquires, please contact our contractor Gammon Nishimatsu WIL JV at 9540 2578.

Yours sincerely

Wong Chiu-yung (Ms)
Projects Communications Manager
