

REGULATIONS FOR THE DEGREE OF MASTER OF RESEARCH IN MEDICINE (MRes[Med])

(See also General Regulations)

Any publications based on work approved for a higher degree should contain a reference to the effect that the work was submitted to the University of Hong Kong for award of the degree.

The degree of the Master of Research in Medicine (MRes[Med]) is a postgraduate degree awarded for the satisfactory completion of a course of study in the Faculty of Medicine.

M43 Admission requirements

To be eligible for admission to the courses leading to the degree of Master of Research in Medicine a candidate

- (a) shall comply with the General Regulations; and
 - (b) shall either
 - (i) have completed the third year of the curriculum for the degrees of Bachelor of Medicine and Bachelor of Surgery and shall have passed the Third Examination for those degrees, if admitted under JUPAS to that curriculum; or
 - (ii) have completed the second year of the curriculum for the degrees of Bachelor of Medicine and Bachelor of Surgery and shall have passed the Second Examination for those degrees, if admitted under the non-JUPAS channel to that curriculum, and already in possession of a Bachelor Degree with Honours, or equivalent, in a science subject.
-

M44 Award of degree

To be eligible for the award of the degree of the Master of Research in Medicine a candidate

- (a) shall comply with the General Regulations;
 - (b) shall complete the requirements for the award of the degrees of Bachelor of Medicine and Bachelor of Surgery; and
 - (c) shall complete the curriculum and satisfy the examiners in accordance with the regulations set out below.
-

M45 Length of curriculum

The curriculum shall extend over not less than one academic year of full-time study and such additional periods as may be prescribed.

M46 Completion of curriculum

To complete the curriculum, a candidate

- (a) shall follow instruction in the syllabuses prescribed for the course and complete satisfactorily all required written, practical or clinical work;
- (b) shall satisfy the examiners in the course by continuous assessments or by written examinations; and
- (c) shall complete and present a satisfactory dissertation on an approved research project. The examiners may also prescribe an oral examination.

M47 Course selection

Selection of study patterns shall be made in consultation with the candidate's Supervisor and be subjected to approval by the Head of Department under which the candidate is registered.

M48 Title of dissertation

The title of the dissertation shall be submitted for approval before the end of the academic year, and the dissertation shall be presented not later than the end of the tenth semester of the curriculum of the degrees of Bachelor of Medicine and Bachelor of Surgery. The candidate shall submit a statement that the dissertation represents his own work undertaken after registration as a candidate for the degree. The examiners may also prescribe an oral examination on the subject of the dissertation.

M49 Examinations

- (a) A candidate who has failed to satisfy the examiners in a course of instruction shall be recommended for discontinuation of studies under the provision of General Regulation G12.
 - (b) A candidate who has failed to satisfy the examiners in the examination of the dissertation, but have satisfactorily completed the prescribed written, practical or clinical work, may be permitted to resubmit the dissertation and to re-present it within a specified period not more than four months after receipt of a notice that it is unsatisfactory.
-

M50 Examination results

At the conclusion of the examination and after presentation of the dissertations, the names of successful candidates shall be published alphabetically.

SYLLABUS FOR THE DEGREE OF MASTER OF RESEARCH IN MEDICINE

1. The educational objectives of the MRes(Med) are that upon the completion of the curriculum, a candidate will have
 - (a) completed a structured training programme on clinical and/or laboratory oriented research;
 - (b) demonstrated by the presentation of a dissertation that he/she has acquired an acceptable knowledge and understanding in the field of study; and
 - (c) be capable of engaging in research effectively.
2. The MRes(Med) curriculum shall consist of coursework and a dissertation project. A candidate will be required to undertake a minimum of 408 hours of prescribed work, comprising a minimum of 168 hours of coursework and a minimum of 240 hours of hands-on research training leading to a dissertation of not more than 20,000 words. The selection of study pattern shall be made in consultation with the candidate's Supervisor and be subjected to approval by the Head of the Department under which the candidate is registered.

3. A minimum of 168 hours of coursework (24 hours each) shall be selected from the following:

Department	Course Code	Course Title
Anatomy	MMPH6149	Current Morphological Techniques in Cellular Functions
Biochemistry	MMPH6005	Practical Bioinformatics
	MMPH6008	Genes and Gene Functions
	MMPH6011	Working with Genes and Proteins
	MMPH6134	Biochemistry Seminar
Community Medicine	MMPH6002	Introduction to Biostatistics
	MMPH6003	Epidemiology and Critical Appraisal
	MMPH6006	Evidence Based Practice : An Introduction to Clinical Epidemiology and Decision Analysis
	MMPH6014	Biological Basis of Common Health Problems
	MMPH6106	Advanced Epidemiological Methods
	MMPH6107	Epidemiology of Important Health Conditions
	MMPH6108	The Principles of Public Health
	MMPH6109	Psychosocial Issues in Health and Illness
	MMPH6114	Quality Health Care
	MMPH6115	Health Services Management
	MMPH6116	Health Economics for Public Health
	MMPH6117	Advanced Statistical Methods I - Experimental and quasi experimental designs and data analysis
	MMPH6141	Health and Society
	MMPH6146	Health Care Systems and Policy
	MMPH6150	Advanced Statistical Methods II - Analysis of complex data
	MMPH6154	Health Promotion and Health Education
	MMPH6157	Research Methods in Health Care
	MMPH6158	The Practice of Health Administration
	MMPH6159	The Practice of Public Health
	MMPH6164	Risk: Perception, Decision and Communication
	MMPH6167	Infectious Disease Epidemiology
	MMPH6168	Advanced Infectious Disease Epidemiology
	MMPH6170	Health Care Financing
	MMPH6173	Introductory Public Health Genomics
	MMPH6177	Statistical Inference Using R
	MMPH6178	Informatics for Health Management
	MMPH6179	Leadership Initiatives in International Public Health
	MMPH6180	Public Health Law and Ethics
	MMPH6181	Public Health Nutrition
	MMPH6182	Health Communication
	MMPH6183	Human Resources (HR) in Health Care Organisations
	MMPH6188	Environmental Health Assessments
	MMPH6189	Environmental Health Hazards
MMPH6190	Environmental and Occupational Epidemiology	
MMPH6191	Population Health Informatics/eHealth	
Microbiology	MMPH6119	Current Topics in Medical Microbiology
Obstetrics & Gynaecology	MMPH6120	Assisted Reproduction Technology (Laboratory)
	MMPH6147	Research Seminars in Obstetrics and Gynaecology
	MMPH6186	Research Methodologies in Obstetrics and Gynaecology

Department	Course Code	Course Title
Orthopaedics & Traumatology	MMPH6124	Basic Medical Bioengineering
	MMPH6148	Advanced Seminars in Orthopaedic Research
Pathology	MMPH6001	Laboratory Methods and Instrumentation
	MMPH6016	General Cytopathology
	MMPH6020	Molecular Medicine
	MMPH6139	Techniques and Applications of Molecular Pathology
	MMPH6140	Molecular Genetics and Cytogenetics of Cancer
	MMPH6176	Current Topics and Techniques in Immunology
Pharmacology & Pharmacy	MMPH6127	Principles of Drug Action
	MMPH6128	Therapeutic Strategies for the Management of Cardiac and Respiratory Diseases
	MMPH6129	Basic and Applied Toxicology
	MMPH6172	Advances in Vascular Biology and Therapeutics
Physiology	MMPH6185	Advanced Drug Delivery and Nanomedicines
	MMPH6007	Cell Biology
	MMPH6009	Concepts of Human Physiology
	MMPH6019	Advances in Cardiovascular Physiology
Psychiatry	MMPH6192	Course and Outcome of Psychotic Disorders
	MMPH6193	Critical Appraisal and Evidence-based Approaches in Psychosis
	MMPH6194	Neurocognitive Dysfunctions in Psychosis
	MMPH6195	Neurobiological Processes in Psychosis
Surgery	MMPH6138	Laboratory Animal Handling and Surgical Techniques
	MMPH6012	Statistical Practice in Clinical Trials
	MMPH6013	Critical Appraisal and Meta-analysis of Clinical Trials
	MMPH6015	Good Clinical Practice (GCP) and Study Site Operation
	MMPH6017	Introduction to SAS
	MMPH6018	Advanced Course in SAS
HKU-Pasteur Research Centre	MMPH6171	HKU - Pasteur Virology Course
	MMPH6174	HKU - Pasteur Immunology Course
	MMPH6175	HKU - Pasteur Cell Biology Course
LKS Faculty of Medicine	MMPH6021	Introduction to Contemporary Biomedical Ethics
School of Chinese Medicine	MMPH6187	Current Research and Development of Chinese Medicines
